

Personal Information:

- Name: Genre Glenn Serapia Morales
- Address: Purok 4 Barangay 2 Sipalay City, Negros Occidental, 6113
- Email: genreglennmorales@gmail.com
- Contact: 09129527724 / 09466150522

Objective:

Highly skilled Frontend Web Developer with a year of experience in HTML, CSS, and SCSS framework. Seeking a challenging position to utilize my expertise in creating responsive designs and contribute to innovative web development projects.

Education:

- Bachelor of Science in Information Technology, AMACC Bacolod - College, Graduated: 25-07-2023
 - During my first year of college, I independently studied Python, focusing on fundamentals and syntax. We also learned turtle graphics, and for our final project, I created a Facebook page as a personal portfolio. It showcased various projects, including video editing and the use of AI editors.
- Information and Communication Technology, ACLC Antipolo - Senior High, Graduated: 20-08-2020
 - In grade 11 and 12, our group created a POS (Point of Sale) system using NetBeans with Java and MySQL. This project provided me with a strong understanding of the fundamentals of programming.
- Sololearn Certificates: HTML, CSS, JavaScript, Introduction to Python
- Grasshopper Certificates: Coding Fundamentals 1 and 2

Skills:

- Proficient in HTML, CSS, and SCSS framework, with excellent knowledge of structured and responsive design principles.
- 7 months of experience in JavaScript, including version control with Git, GitHub, and build tools like Vite.
- Familiarity with front-end frameworks like React JS.
- Strong problem-solving and analytical skills, meticulous attention to detail, and excellent communication and collaboration abilities.

Projects (2022-present):

- Developed and designed a responsive movie website using HTML, CSS, JavaScript, including dark mode features. Published on GitHub and hosted online using Vercel.
- Created a portfolio website using React, JavaScript, and SCSS, implementing smooth UI/UX and responsive layouts.
- Collaborated on an impressive portfolio website (my old portfolio) with animations, optimized speed,

and clean code practices.

Hobbies/Interests:

- Biking, playing basketball, surfing the net, playing PC/cell phone games, crypto trading, playing NFT games.
